Exclusively created by Soleil Spa, this therapeutic massage is designed to relieve aching muscles through a unique combination of techniques. ## **BACK, NECK, AND SHOULDER MASSAGE**

**60 minutes - IDR 400.000++/ person**

This massage therapy is widely recognized in the medical community as an effective treatment for various types of back pain and as a complement to other medical treatments. It enhances blood flow and circulation, delivering essential nutrients to muscles and tissues. The massage helps reduce muscle tension, improving flexibility, alleviating pain from tight muscles, and promoting better sleep. Additionally, it boosts endorphin levels, the "feel-good" chemicals in the brain, which can reduce pain and accelerate recovery. This treatment is especially beneficial for those suffering from chronic back, neck, or shoulder problems.

## **FOOT REFLEXOLOGY MASSAGE**

**60 minutes - IDR 400.000++/ person**

Reflexology is based on the principle that reflex points on the feet correspond to organs and structures throughout the body. This therapeutic massage stimulates these points to promote balance and enhance overall well-being, helping to reduce stress and improve circulation.

## **PREGNANCY MASSAGE**
